

The Gorge Area Reinforcement Project Stakeholder and Public Outreach Process

...things for you to think about...

We want to thank you for your attendance at our first Stakeholder meeting and for your interest in the design of this project. We value your thoughts.

The following is a list of topic areas that often arise in discussions of this kind of project. We encourage you to review this short list and share any thoughts or questions you might have on these topics. Feedback on any other topic is also welcome, of course, including others that arose during today's session:

- **Non-Transmission alternatives**
- **Transmission alternatives**
- **Proposed project scope**
- **Planned power line corridor and alignment**

Recommendations and input regarding the above will have the following considerations:

- **River and major road crossings, scenic impacts**
- **Potential wildlife impacts**
- **Potential wetland and stream impacts**
- **Archaeological sites**

We hope to see you and hear your comments and feedback at our next meeting / open house on **Thursday, April 10th at the South Burlington High School** from 5:00 to 8:00 pm.

If you have any questions in the mean time, please don't hesitate to contact:

- Dotty Schnure at Green Mountain Power: 655-8418, schnure@greenmountainpower.biz
- Kerrick Johnson at VELCO: 770-6166, kjohnson@velco.com
