Re: Petition of Vermont Transco LLC and Vermont Electric Power Company, Inc.  
(collectively, "VELCO"), for a Certificate of Public Good pursuant to 30 V.S.A. § 248(j)  
authorizing upgrades to VELCO's existing Irasburg Substation, located in Irasburg,  
Vermont

Dear Ms. Whitney:

Today we filed the above-referenced Section 248(j) Petition via ePUC on behalf of VELCO. Included with our filing is a Motion For Permission To Utilize Alternative Methods To Complete Service. Specifically, through this Motion, VELCO requests permission to serve the Town officials and Regional Planning Commission with copies of the Petition filing via email.

We have also enclosed with the Petition filing a draft letter from VELCO to adjoining landowners. While not required for a proceeding under Section 248(j), we have proposed sending this letter in order to provide adjoining landowners with information about how to access an electronic copy of the Petition filing, as well as provide them with information about guidance available on the Public Utility Commission website.

If you have any questions, please do not hesitate to call or email me.

Sincerely yours,

SHEEHEY FURLONG & BEHM P.C.
