Electric Operating Revenues

The following instructions generally apply to the annual version of these pages. Do not report quarterly data in columns (c), (e), (f), and (g). Unbilled revenues and MWH related to unbilled revenues need not be reported separately as required in the annual version of these pages.

 Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
 If increases or decreases from previous period (columns (c), (e), and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.

(See Account 442 of the Uniform System of Accounts. Explain basis of classification in a footnote.)
 See page 108, Important Changes During Period, for important new territory added and important rate increase or decreases.
 For Lines 2,4,5,and 6, see Page 304 for amounts relating to unbilled revenue by accounts.
