

RFP Solicitation No. 2025-12-R384 Preliminary Sandbar/ K19 Line Realignment: Steel Structures

- **RFP Number:** Solicitation No. 2025-12-R384
- **Issued Date:** Tuesday, December 23, 2025
- **Issuing Activity:** Vermont Electric Power Company ("VELCO") located at 366 Pinnacle Ridge Rd, Rutland, Vermont 05701
- **Description of Requirement:**

This RFP solicits bidders to provide quotation in consideration of the Steel Structure Specification which covers the design, drawings, materials, fabrication, finishing, and delivery of tubular steel pole direct buried transmission structures. This includes all design calculations, detailing, attachments, attachment bolts, climbing attachments, and grounding attachments, if specified.
- **Closing Date and Time:** Monday, January 12, 2025 at (1700 hours EST)
- **Contact Information:** Joshua Chilson
Manager – Contracts, Procurement & Inventory
+1(802)712-4747
jchilson@velco.com
- **Statement of Competition:** All responsible sources may submit a response to this Solicitation if timely received, and will be considered
- **Evaluation Factors:**

The contract will be awarded to the responsible Offeror whose proposal represents the best value to VT Transco, considering both price ($\geq 50\%$) and non-price (cumulatively $\leq 50\%$) evaluation factors. The evaluation will assess the relative qualities of each proposal solely on the factors and significant subfactors specified as follows and as referenced within the RFP solicitation: Technical Approach & Suitability to Perform the Work, Past Performance & Safety, Contract Terms Acceptance, and Price.

- **How to Obtain the Full RFP:** Please reach out to Joshua Chilson (contact information listed above) for instructions on where to download the complete RFP solicitation.
